OFFICE OF THE
SECOND MEMBER OF COUNCIL

No. 5285

The Sanitary Administration of the area included in and adjecent to the Bhadravati Iron Works requires greater attention than it is at present given to it. In the portion just outside the area under the control of the Iron Works, numerous houses, huts and shops have sprung up and are springing up in all sorts of localities and I fear they will prove a source of great danger and nuisance in course of time. I understand that the lands belong to some Inam Village and permission has been given to build these huts in the most profuse manner without the least regard to other requirements. After discussion of the matter with the General Manager of the Iron Works, it seems to me that action may be taken under Section 34 and 35 of the Mines Regulation of 1906 to vest the administration of these matters in a suitable Sanitary Board. The existing Municipality of Bhadravati should also, I think, be included within this area as well as any other small villages in the neighbourhood. This question may be further examined in the Local Self-Government and the Law Secretariats, and the Deputy Commissioner consulted and suitable action taken.

General Secretary,
with compliments.

2) The question of constituting the Iron works area into a Village Panchayat is being considered separately. The Dy Commr Shimoga District has been requested to discuss the matter with the Manager of the Iron Works and report the result of the discussion for the information of Govt. The report from the Dy Commr is awaited.

3) In this connection kind attention is invited to Paras 40 & 43 of the note in file VB 73-28- just ups. The General Secretary has considered that the formation of a Sanitary Bd for the area is out of question as it will not have a stable basis and that the only alternative is to form the area into a municipality.

4) Under Section 34 of the Mines Regn it is open to Govt. to make rules for the special sanitation and Sanitary administration of any local area within which mining operations may be carried on. "Mining operation" as defined in Section 3 of the Regn includes treatment of ores, minerals and mineral products of every description and it is essential

that ~~any area~~ in order that any area may be brought under the operation of such rules the area should be one within which mining operations ~~should be~~ are carried on. It is proposed to bring the existing municipality of Bhadravati and some small villages in the neighbourhood also within the purview of the rules. This would be possible if it could be held that mining operations are carried on in these areas also. Submitted for orders.

If the operations in Bhadravati are held to fall under the definition of 'mining operations' contained in Sec 3, I do not see any reason why the administration of the area should not be vested in a Sanitary Board constituted for the purpose.

8 The Regulation extends to the whole of Mysore with this exception, viz: that the provisions of Ss. 5-20 shall not be applied to any local area unless extended thereto by the Govt by a notification (S.4).

41) "Mining operation" as defined in section 3 cl(1) of the Mines Regulation is not restricted to the carrying on of actual mining work, but includes ~~any~~ any work carried on in connection with the "winning, dressing, milling and treatment of ores, minerals and mineral products of every description". It also includes the "erecting, making and using of, and otherwise dealing with, for purposes of such work, any railway, tramway, road, building, machinery and other plant", as well as "the manufacture, carriage, storage and use of all explosives, chemicals etc to be employed in such work".

42 The actual mining work may be conducted in one place and the dressing, milling & treatment of ores may be conducted in another. In such cases both the places are areas in which mining operation can be said to be carried on.

43 Again it does not appear to be necessary under Sec 34 and 35 of the Mines Regulation that within the area ~~for~~ for which a saw is to be constituted, mining operations are actually carried on; it is sufficient if the area is such that such operations "may be carried on" in future.

from the D.C. Shimoga, forwarding a note by the Liquidating Manager, Bhadravati Iron works, stating that he is against the constitution of Iron works area into an independent panchayat and stating that the proposal made by the manager does not seem to be helpful in combating and controlling epidemics and suggests that the entire area may be constituted either into a Sanitary Board on the lines of the K.S.T. is whether the Iron Works area is to be constituted into a Village Panchayet or a Sanitary Board or a Municipality.

2) It arose out of the claim of the Village Panchayet of Jamnapur within whose jurisdiction the Iron Works area is included, to levy taxes on the buildings in the New Bhadravati town and proposal of the Board of Management of the works to remove the area from the jurisdiction of the District Board or the Village Panchayet and to entrust its Municipal Administration to the Board itself. The Revenue Commr. stated that the claim of the Panchayet was reasonable and recommended the constitution of the area into a separate local unit as otherwise the ordinary law would have to be enforced.

A (linked file)

B.

3) In this office letter No.L.1864 dated 10-9-29 the Deputy Commissioner, Shimoga was informed that Government were of opinion that the area might very well be constituted into a Village Panchayet, the Chairman being nominated by the Iron Works Board but working subject to the control of the Amildar and Deputy Commissioner. The other alternative suggested was to form the area into a Town or Minor Municipality or include it in the present Bhadravati Municipality. The Deputy Commissioner was asked to discuss the matter with the Manager of the Iron Works and report the result to Govt.

(Linked file)

B (linked file)

C

4) In a later communication dated 30-10-30 it was suggested to the Deputy

Commissioner that the Sanitary Administration of the area included in and adjacent to the Iron Works may be vested in a Sanitary Board constituted for the purpose and he was asked to send up the details of the local area to be so included in consultation with the General Manager.

K

5) In May 1932 the Deputy Commissioner reported that the Municipal Council of Bhadravati, which had first resolved against the inclusion of the Municipality in the Sanitary Board area, were agreeable to ~~this~~ his proposal to form the the Bhadravati Municipality and the Iron Works area into one Municipality subject to certain conditions regarding the number of members to be elected to the Council by the component parts. He promised a further communication in the matter after consulting the General Manager.

J

6) It was subsequently considered undesirable to club the Iron Works area with the Bhadravati Municipality and the next proposal ~~was not therefore pursued.~~

Considered was the formation of the area into an independent Panchayet. / J

7) It is now reported that the General Manager of the Iron Works is against the constitution of the area into a Village Panchayet on account of some practical difficulties mentioned in his note dated 28-7-33.

L

The necessity for the constitution of the area into a separate unit is recognised by the General Manager and his proposals are :-

(i) To remove the area comprising the Iron Works from the boundaries of the respective villages.

operation of the District ...
under section 102 (i) and

(iii) To give power to the authorities of the works to control sanitation, markets mutton stalls etc., under Section 102 (ii) of the same Regulation.

8. The Deputy Commissioner, Shimoga, is of opinion that ~~the~~ an exclusive area of the kind proposed will not be helpful in controlling epidemics and that it is best to constitute the entire area into a Sanitary Board or to continue the existing arrangement.

M In his earlier letter dated 12-9-32 the D.C., however stated that "as the authorities of the Iron Works would prefer to be independent of the Bhadravati Municipality the proposal to form a Sanitary Board did not seem to be feasible." Perhaps his present proposal for the formation of the Sanitary Board is in respect of only the Works area, excluding the old Bhadravati town and also portions of the adjoining villages not included in that area.

The Deputy Commissioner may, perhaps ~~if necessary~~, be asked to state what the entire area referred to in his letter of the 19th November is intended to include & whether the Iron Works Authorities are agreeable to this proposal.

The points for consideration are:—

(i) Whether the area comprising the Iron Works should be constituted into a Sanit Board with or without the adjoining villages which it forms part

(iii) Whether the area should be removed from the boundaries of the villages concerned & constituted into a separate area, excluding it from the scope of the Village Panchayat and the D.V.P.D Regulation and giving necessary powers to the authorities of the Iron Works for controlling sanitation, markets, mullen stalls, cattle pounds &c under Sec 102 (2) of the latter Regulation.

A // Regarding the admissibles of this, the Law Section may be consulted. It is doubtful if the exclusion of the area from the boundaries of the Panchayats concerned is permissible, as the proviso to sec 1 (3) of the V.P. Regn (as amended by Regn VII of 1931) does not seem to apply to this case.

NOTE—Contn. Sheet.

The villages concerned have to be redistributed and new villages with new boundaries formed so as to constitute the area under the Iron Works as a separate village. Section 5 of the Land Revenue Code gives enough power to Govt to do this.

But it is not clear how this would enable this area to be excluded from the mandatory provision of sec 4 of the Village Panchayat Regulation, unless the area is constituted into a Municipality or placed under the control of a Sanitary Board under the Mines Regulation, in which case the area would not be a village as defined in the V.P. Regn and the D.C will not be obliged to establish a Panchayat for the area..

If the area is merely exempted from the operations of the Dt Bd Regn, this does not enable Govt to give necessary powers to control sanitation, etc to the authorities of the Iron Works. Because under Sec 102(2) Govt may make rules only to provide for matters dealt with by the provisions of the Dt Bd Regn and sanitation or health of an area under a village Panchayat is not one of such matters. It is only if such measures affect villages under different Panchayats that sec 45 of the Dt Bd Regn

applies.

b) The only possible way therefore is ~~suggested by the D.C.~~ either to constitute the area into a Sanitary Bd or to establish a Village Panchayat for the area after constituting it into a village under the L.R.Code.

the election, as recommended so that the reconstituted may come into effect from 1-8-34. But orders have already been issued extending the term of the Council by 3 months i.e. till the end of September 34. According to this, the new Council will come into existence from 1-10-34.

84 The D.C. seems to have taken action for reconstituting the Council from 1-8-34, on the assumption that his proposal for dropping the question of forming a Sanitary Board for the Town area and continuing the existing arrangement will be approved by Govt. In case the proposal is not to be accepted & a change in the existing arrangement which affects the Bhadravati Municipal Council is to be made, the elections fixed for the 16th inst will have to be deferred until orders are passed in the matter.

87 As stated in para 76 above I have discussed the question with the Chairman Nyasa Land Works who agrees that in the present circumstances the formation of a local body including the village & Works area will lead to many practical difficulties and that this need not be attempted for now. To get over the legal difficulty the works area above may be formed into a Sanitary Board. This will be worked up separately.

88 In the meanwhile as the Bhawani Mfg is concerned, the proposal as per memo may be agreed.

Forwards a copy of letter No. G. 302 dated 26th July 1936 from, the General Manager, Mysore Iron & Steel Works, stating that it is not suitable for the area to be constituted into a Sanitary Bd & that it would be sufficient to exclude the area for the jurisdiction of the Dt Bd and for the revenue accounts as a revenue village and opines that the question may be allowed for the present.

(10) Kind reference is invited to the legal opinion expressed at para 64 supra and the Dev: Secy's notes at paras 76 and 88. Now that the question of Amending the Village Panchayat Regulation so as to admit of parts of Villages being constituted into Village Panchayats where such industrial areas such as the Bhadravati Iron Works, ~~etc~~ the Sugar Factory &c are concerned, has been approved and is going to be placed before the next A. A, this question may perhaps be over like ~~the~~ the said Amendment is passed so that the Iron Works area ~~can~~ may under the modified V. P. Regn be constituted into a Separate V. P. which appears to have been the idea of the Genl Manager from the beginning & for which no legal objection also will exist.

Sir,

With reference to your D.O. letter No.L. 7315 dated the 27th April 1932, asking me to submit a report regarding details of the local area to be included in the Bhadravati Sanitary Board, I have the honor to state that I attended a meeting of the Bhadravati Municipality on the 22nd of last month and discussed with the members the advantages and the desirability of forming the Bhadravati Municipal Area and the Iron Works Area into one Municipality for the sake of better management. The Municipal Members who had resolved some time back that the present Municipal area should not be included in the Sanitary Board proposed to be formed, have after some discussion now changed their views and are agreeable to reconsider their resolution and to form themselves into one Municipality. I have requested the President to place the matter before the Council at their next meeting and to send me a copy of their resolution for further action being taken.

The terms offered by me to the Municipal Council after consultation with the Manager, Iron Works are as follows:-

(1) The adjacent village panchayets of Muthe and Jannapur should also be included in the new Municipal area.

(2) That the residents in the present Bhadravati Municipal area should have the right to select four members and the village panchayet of Muthe and Jannapur one member each to represent them on the combined council.

(3) The residents in the Iron Works area should have the right to send 4 elected or 4 nominated councillors at the option of the Iron Works to sit on the council.

(4) The Ex-officio Members should consist of the Manager, Iron Works as President (2) the Medical officer, Bhadravati Iron Works and (3) the Revenue Sub Division Officer, Shimoga. In addition to these Government should have the right to nominate two more members to the Council to represent minorities without any restriction as to whether they reside in the Iron Works area or in the Bhadravati Municipal limits.

The Municipal Members present were generally agreeable to these proposals but represented that the number of elected members from the present Bhadravathi Municipal area should be increased from 4 to 6 and that the Deputy Commissioner should be the President for the first term till the whole scheme is brought to a working order. As this is a matter of detail, I told the Municipal Members present to discuss the question with my suggestions as the basis of the scheme and to send up their resolution with any alterations that they wish to propose. On hearing from the President, I will submit a further report, after consulting the Manager, Iron Works, again if necessary.

SIR,

With reference to your letter No.D.6504 dated 23rd June 1932, enquiring if mining operations are not carried on in certain area at Bhadravati, I have the honour to state as follows:-

As defined in section 3 (i)(b)(c) of the Mysore Mines Regulation, No.IV of 1906, I am of opinion that mining operations are being carried on in the Bhadravati Mysore Iron Works area.

The Mysore Iron Works area appears to have been defined by Government as evidenced from the plan sent to me by the Works showing the lay out of the New Town and Plant. In the case in point the Proprietor of the area is the Government itself.

In view of the above, the sections 34 and 35 of the Mines Regulation relating to sanitation and sanitary Board appear to be applicable to the Mysore Iron Works area.

It is understood that at present the local administration of the Works area is under the control of the Works, one of the Works officers being in charge of the Town, looking after the sanitation and welfare of the employees, repairs and maintenance of roads and buildings, watch and ward &c., of the

p.t.o

the Works area. The population of the Works area is stated to be 4442 according to the last Census.

The Bhadravati municipal area is distinct from the Works area and there does not appear to be any mining operation carried on there.

It is further stated that the Panchayet units of Hutha and Jannapur villages are not included in the Iron Works area. The former village of Anchalli and portions of Jannapur and Anekoppa villages are stated to have been acquired and included in the Iron Works area. It is believed no mining operations are being carried on outside the Mysore Iron Works area.

I have in my letter No: M.3.C.1309/31-32 dated the 12th September 1932 (sent separately) reported that it would not be possible to constitute Bhadravati Town Municipality and the Mysore Iron Works into a Sanitary Board, although the Bhadravati Municipal Council is agreeable to combine on certain conditions mentioned in their resolution copy of which has been sent to you with my report. When I discussed the matter with the First Member of Council and Chairman of the Board, he was not in favour of including the Iron Works area as part of the Bhadravati Municipality on account of the unnecessary interference of some of the Municipal members in the smooth working of the present Sanitary arrangements made by the Iron Works. Mr. Venkata-naranappa whom I consulted again is agreeable to have the Iron Works area made into an independent Panchayet to avoid all complications provided Government prohibit construction of houses all round within two furlongs from the boundary

of the Mysore Iron Works. I am going into this question again with him after getting the necessary maps and will submit a further report.

From the Note it may be seen that he is against the constitution of the Iron Works area into a village panchayet on account of some practical difficulties. A copy of this note is submitted herewith for the perusal of Government. I think that an exclusive area of the kind proposed will not be helpful in combating and controlling epidemics. It seems best to constitute the ~~active~~ entire area into a Sanitary Board on the lines of the Kolar Gold Fields Sanitary Board or it may be continued to occupy the possition it does at present.

Bhadravati,
28th July 1933.

Note.

The area that has been acquired for the Mysore Iron Works, comprises portions of the villages of Bhadravati, Anchalli, Jannapur and Futha. It is necessary that these lands should be excluded from those villages and constituted into a separate area.

2 In the area acquired for the Mysore Iron works, no private interests have been allowed to spring up. There are no private buildings. Only huts have been allowed to be built on condition that they should be removed as and when required to do so by the Works.

3 The water supply, drainage, sanitary facilities, roads and lighting and other amenities usually provided in municipalities are all taken care of by the Works free of cost; and no sort of tax or rates is levied on the inhabitants. From the point of enforcing sanitation and provision of amenities, it is not necessary to constitute this area into a Municipality so long as the Iron Works are managed by Government.

4 The question, however, arose as the authorities of the Works have no definite powers under the existing regulations to arrange for mutton stalls, markets, weekly shandies or cattle pounds. At the same time, unless the area is constituted into a separate unit, this control automatically vests in the Village Panchayet concerned or in the District Board.

5 This position is not satisfactory and to escape from it, it has been suggested that the area should be constituted into a Village Panchayet. But the conditions obtaining in the area are such that the usual conditions found in a

village do not obtain in it. As already stated, there are no private interests, there is no municipal taxation of any kind and at the same time the usual amenities are provided free of cost. There are no separate interests to be represented on a governing body.

6 It is no doubt possible for the Works to give a lumpsum grant equal to the present expenditure and allow a separate body elected by the employees to run the municipal administration but there is one serious difficulty. The lighting and water supply to the town is managed by the Electric Staff of the Works and similarly the Civil Engineer looks after the roads, sanitation, etc., as part of their Works duties. A separate staff will be expensive and should be avoided during the present depression. Moreover, the Panchayet and Chairman will have to work under the instructions of the Amildar of the Taluk, who cannot be expected to understand to the same extent the peculiar conditions obtaining in a town constituted entirely by the staff of the Works.

7 In this view, I am against the constitution of this area into a village Panchayet at present. All the more so, as I feel that the technical difficulties can be met by:-

(i) removing this area from the boundaries of the respective villages.

(ii) exempting this area from the operation of the Mysore District Board's Regulation under section 102(i)

and (iii) giving necessary powers to the authorities of the Works to control sanitation, markets, mutton stalls, cattle pounds etc., under Section 102(2).

As already stated, the sanitation is being well looked after and the Works are also rendering to the Amildar all returns required such as Statement of Births and Deaths, etc. It seems to me that the above suggestion appears the simplest solution and may be tried if Government have no objection.

General Manager.

SECRET BRANCH
L. S. 9
20 JUN. 1934

Sir,

In continuation of this Office No: M.3.C.1309/31-32 dated the 8th May 1934 regarding the formation of a Bhadravati Sanitary Board including the Iron Works area therein, I have the honour to state that I discussed the question in detail with the General Manager of the Iron Works. He is not in favour of the Iron Works area being included in the proposed Sanitary Board since that would give rise to interference by the elected members of the Board in the affairs of the Works area which are managed efficiently by the Works staff. As it is, the General Manager is spending about Rs. 20,000/- for the sanitation and up-keep of the roads lying in the Works area while the funds available in the Bhadravati Municipality for that purpose is barely about Rs.6000/- and the question of restricting the expenditure to the amounts respectively available for the Works area and the Municipal area would be fraught with difficulties and would eventually lead to friction. The Board of Management is not therefore agreeable to enter into any arrangement which brings the Works in contact with elected element of a Sanitary Board. I therefore consider that the question of forming a Sanitary Board for the whole area including the Bhadravati Municipality and the Iron Works area may be dropped. As at present, the Works area is included in the limits of the Village Panchayet of Jannapur and the Vital Statistics are furnished by the Works Manager to that body. This arrangement may continue. The Manager does not also press for the exclusion of the area from

the operation of the District Board Regulation and he does not think that the establishment of a shandy or ~~or~~ a cattle-pound is necessary in the Works area.

2. As the term of the Bhadravati Municipality expires on 1st July 1934, I have issued orders to the President to take immediate steps to reconstitute the Council and the elections have been fixed for 16th July 1934.

3. Further as, under the circumstances, the Council will not have been constituted by the 1st July 1934, I recommend that the term of the existing Council may be further extended till 1st August 1934.

SIR,

With reference to correspondence ending with Memo No. L. 8885/Ml. dated 20th instant forwarding a copy of Notification issued under G.O.No. L. 8884/Ml. 53-33-30 dated 20th June1934 extending the term of the Bhadravati Municipal Council for a further period upto the end of September 1934 and directing that steps may be taken for holding general elections to the Bhadravati Town Municipal Council etc., I have the honour to invite kind reference to my letter No. M3.C. 1309/31-32 dated 18/19th instant wherein it was recommended that under the circumstances explained therein, the question of forming a Sanitary Board for the whole area including the Bhadravati Municipality and the Iron Works area may be dropped and that as the Council will not have been constituted by the 1st July 1934, the term of the existing Council may be further extended till 1st August 1934.

From the correspondences between this office and the Iron Works Authorities, as it was made out that the question of forming a Sanitary Board may not be finally decided before the term of the existing council expires, I had issued orders to the President (before I submitted by final report referred to above in this connection) to take immediate steps to reconstitute the Council. Accordingly the calendar of events has been published and necessary

preliminary

preliminary steps have been taken by the President for holding General elections and the elections have been fixed for the 16th July 1934, In these circumstances, as the Council may be reconstituted with effect from 1st August 1934, it is enough that the term of the existing council is extended upto 1st August 1934 as proposed in my letter referred to above. I therefore request that the notification issued under Government Order in question may kindly be modified accordingly.

Further, I may be permitted to bring to the notice of Government that ~~the~~ Bhadravati is only a Minor Municipal Council and it has not been yet constituted as Town Municipal Council as mentioned in the memo under reference and as such action has been taken to reconstitute the council under the Minor Municipal Election Rules.

Dear Sir,

Formation of a Sanitary Board for the Mysore Iron & Steel Works area.

With reference to your letter No.M3C1309/31-32 dated 15th April 1936, I am desired to state that the constitution of a Sanitary Board for the Works area under the provisions of the Mysore Mines Regulation will not suit our purposes. In order that such a Board may be effective it will be necessary that it should have jurisdiction not only over the Works area but also the adjoining villages and municipal areas in matters relating to sanitation and health etc. A Board with such extended jurisdiction does not seem to be either necessary or feasible. The needs of the Works area will be adequately serve if the area is exempted from the jurisdiction of the District Board under Section 102(1) of the District Boards' Regulation It would also be necessary to exclude the area from the Reve accounts as a Revenue village so that Section 3(10) of the

Village Panchayat Regulation II of 1926 as amended by Regulation VII of 1931 will not apply to the area.

If the above proposal to exclude the Works area from the purview of the District Board Regulation is approved and a notification can accordingly be issued by Government, I shall submit draft bye-laws and rules under sub-section 2 of Section 102 of the Regulation.

SIR,

Subject:- Formation of a Sanitary Board for the Mysore Iron & Steel Works area.

In continuation of my letter No. M3. C. 1309/31 dated the 6th July 1936, on the above subject, I have the honour to forward herewith for your information a copy of letter No. G. 302 dated the 26th July 1936 from the General Manager, Mysore Iron & Steel Works, Bhadravati intimating that the constitution of a Sanitary Board for the Works area is not suitable and that the needs of the works area will be adequately served if the area is excluded from the jurisdiction of the District Board under Section 102 (1) of the District Boards Regulation and also from the revenue accounts as a revenue village. The General Manager has again reverted to his original proposition which was first made by the Iron Works authorities and which was not accepted by Government for reasons set forth in this office letter No. M3. C. 1309/31 dated the 19th November 1933, Vide General Secretary's letter No. L. 5551/L.B. 140-29-10 dated the 24th January 1934.

2. As the General Manager is not in favour of constituting the Works area into a Sanitary Board, it is for consideration whether the question may not lie over for the present. As the sketch map of the area proposed to be constituted into a Board and the draft rules etc which were sent to the General Manager from this office

have not been returned by him along with his reply, the particulars called for in your letter No. L. 510/ L.B. 140-29-12 dated 24th July 1934 have not been furnished. They will be furnished on hearing from you that it should be done.

7. (1) The Board may, at any time, in manner hereinafter prescribed, take steps to abate overcrowding in buildings.

2) Whenever the Board consider the interior of a building is so overcrowded as to be or to be likely to become, dangerous or prejudicial to the health of the inhabitants of that or of any neighbouring building, the Board may cause proceedings to be taken before a Magistrate of the first class for the purpose of obtaining an order to prevent such overcrowding.

3) Such Magistrate may, on the production of a certificate by a medical officer duly - - - authorised or empowered by the Board or the - -

the Government, stating his opinion that the overcrowding complained of is likely to cause disease or risk of disease, and after such further inquiry, if any, as may appear to such Magistrate necessary, require the owner of the building within a reasonable time, not being more than six weeks or less than ten days, to abate the number of lodgers, tenants or other inmates of the said building to such extent as he shall deem necessary to prescribe, or may pass such other order as he shall deem just and proper.

4) If the said building shall have been sublet, the landlord of the lodgers, tenants or other actual inmates of the same shall for the purpose of Sub-section (3) be deemed to be the owner of the building.

5) It shall be incumbent on any owner to whom any requisition is issued under Sub-section (3), forthwith to give to so many of the lodgers, tenants or other actual inmates of the said building as may be necessary to fulfil the - -

conditions prescribed thereby, written notice to vacate the said building within the period specified in such requisition, and any such lodgers, tenants or inmates receiving such notice shall be bound to comply therewith.

8. Any owner of a building who, after the date specified in any requisition issued under Sub-section (3) of Section 7, permits the overcrowding of any building in contravention of such requisition, and any person who omits to vacate any such building in accordance with notice given to him under Sub-section (5) of the said section, shall be punished with fine which may extend to ten rupees for each day subsequent to the date specified in such requisition during which such overcrowding or such omission to vacate, continues, provided that the total amount of the fine does not exceed Rs. 100.

Section V-Drains and Latrines:

1. The owner of every bazaar or dwelling shall provide a suitable drain of such pattern as may be approved by the Board, in front and in rear of such bazaar or dwelling, unless a Sanitary Officer decides that such drain is unnecessary, and shall, if specially ordered by the President, provide a similar drain within the premises of such bazaar or dwelling, and shall keep the said drain or drains clean. On failure to comply with this rule, the President may give the owner or occupant of such bazaar or dwelling 48 hours' notice in writing to provide or to clean such drain or drains, and may, if such notice is not complied with, construct or clean such drain or drains, and recover the cost of doing so from the owner or occupier.

2. No person shall construct or maintain a privy pit or latrine within the walls of any building without permission in writing from a Sanitary Officer, or otherwise

than in conformity with his directions.

Provided that dwellings belonging to classes among whom females do not appear in public may be provided with a latrine or privy pit of such description and in such place within the - - - premises as may be approved by a Sanitary Officer, and the same shall be open to periodical inspection by any Sanitary Officer and shall be kept clean.

3. Public latrines shall be provided at such places, in such numbers and of such description as may be prescribed by the Board.

4. No person shall ease himself near or outside a latrine, or in or about any road, public pathway, well or building, or on the banks or beds of any springs, streams or tanks, or in any place where such act has been - - - specially forbidden by the Board.

5. Every person employing workmen, labourers or other persons, exceeding ten in number, on any work, shall be bound, unless the

same is considered unnecessary by a Sanitary Officer, to erect and to keep clean and in repair, a suitable double latrine for the use of the persons so employed. On the failure of any person to comply with this rule, a Sanitary Officer may, after 24 hours" notice in writing to such person, cause a double latrine as aforesaid to be constructed, cleaned or repaired as the case may be, and levy the cost thereof from such person.

6. The Board may, with the approval of Government, frame Bye-Laws regulating, in any other particular not specifically provided for by these rules, the construction, maintenance and control of drains, sewers, ventilation, shafts, receptacles for dung and manure, cess-pools, water closets, privies, latrines, - - urinals and drainage and sewerage works of every description whether the property of the Sanitary Board or not.
